EXECUTIVE SUMMARY

BrightPath proposes a low-cost procurement solution with rapid implementation and a small delivery team.

PROPOSED TECHNICAL SOLUTION

Offers a standard web application and basic API connectivity. Scalability limits, integration architecture and detailed performance testing are not documented.

IMPLEMENTATION PLAN AND TEAM

6 weeks: configuration (2 weeks), integration (2 weeks), testing (1 week), and launch (1 week). The proposed team has one project lead and two developers. Staffing backup and contingency plans are not described.

COMMERCIAL PROPOSAL

Implementation: INR 12,00,000. Annual support: INR 2,00,000. Some integrations and future change requests may incur additional charges. The total cost assumptions are not fully specified.

SECURITY AND COMPLIANCE

Mentions password protection and standard access controls. Encryption details, audit logging, privacy controls, certifications and independent security testing are not evidenced in the proposal.

SUPPORT AND EXPERIENCE

Offers email support during business hours. No detailed incident response targets, escalation structure or comparable enterprise references are supplied.

KEY RISKS AND OPEN ITEMS

Limited compliance evidence, unclear total cost assumptions, limited staffing and missing support commitments.
